ACTIVE INGREDIENT:  
* Permethrin (CAS #52645-53-1) .................................................. 13.30% w/w  
* Cis/trans isomers ratio: min. 35% (±) cis and max. 65% (±) trans.  
OTHER INGREDIENTS** .......................................................... 86.70% w/w  
TOTAL .................................................................................... 100.00% w/w

**Contains petroleum distillates.

KEEP OUT OF REACH OF CHILDREN

WARNING

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact the National Pesticide Information Center at 1-800-858-7378 for emergency medical treatment information.

If in Eyes:  
Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on Skin or Clothing:  
Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If Swallowed:  
Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If Inhaled:  
Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Contains petroleum distillate - vomiting may cause aspiration pneumonia.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Causes substantial but temporary eye injury. Do not get in eyes. Avoid contact with skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Harmful if swallowed. Avoid breathing vapor. Wash thoroughly after handling.

Personal Protective Equipment (PPE) Some materials that are chemical-resistant to this product are long-sleeve shirt and long pants, shoes plus socks, protective eyewear (goggles) and chemical-resistant gloves such as barrier laminate or Viton. If you want more options, follow the instructions for category G on an EPA chemical-resistant apron for mixers/loaders, persons cleaning equipment and persons handling establishments, packaging and processing plants, commercial, industrial, office, institutional and storage buildings, dairies, milk storage rooms, egg processing plants, supermarkets, restaurants, bottling plants, canneries, flour and feed mills, bakeries, and hospitals. In hospitals, patients should be removed prior to treatment. Also for use in campers, mobile homes, boats, automobiles, trucks, and boxcars. Also for use in dog kennels and horse stables. In horse stables, not for application if horses will be used for food.

Do not enter or allow others to enter until sprays have dried, vapors, mists, and aerosols have dispersed, and the treated area has been thoroughly ventilated. Application is prohibited directly to sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

For not for use on plants being grown for sale or other commercial use, or for commercial seed production, or for research purposes. For use on plants intended for aesthetic purposes or for climatic modification and being grown in interior plant scalpels, ornamental gardens or parks, or on golf courses or lawns and grounds.

For use in non-food areas indoors and outside premises of hotels, motels, homes, preschools, nurseries, day cares, nursing homes, hospitals, schools, institutional and storage buildings, dairies, milk storage rooms, egg processing plants, supermarkets, restaurants, bottling plants, canneries, flour and feed mills, bakeries, and hospitals. In hospitals, patients should be removed prior to treatment. Also for use in campers, mobile homes, boats, automobiles, trucks, and boxcars. Also for use in dog kennels and horse stables. In horse stables, not for application if horses will be used for food.

Do not apply to institutions (including libraries, sports facilities, etc.) when occupants are not present. Do not apply to non-food areas indoors and outside premises of hotels, motels, homes, preschools, nurseries, day cares, nursing homes, hospitals, schools, institutional and storage buildings, dairies, milk storage rooms, egg processing plants, supermarkets, restaurants, bottling plants, canneries, flour and feed mills, bakeries, and hospitals. In hospitals, patients should be removed prior to treatment. Also for use in campers, mobile homes, boats, automobiles, trucks, and boxcars. Also for use in dog kennels and horse stables. In horse stables, not for application if horses will be used for food.

For use in non-food areas indoors and outside premises of hotels, motels, homes, preschools, nurseries, day cares, nursing homes, hospitals, schools, institutional and storage buildings, dairies, milk storage rooms, egg processing plants, supermarkets, restaurants, bottling plants, canneries, flour and feed mills, bakeries, and hospitals. In hospitals, patients should be removed prior to treatment. Also for use in campers, mobile homes, boats, automobiles, trucks, and boxcars. Also for use in dog kennels and horse stables. In horse stables, not for application if horses will be used for food.

For use in non-food areas indoors and outside premises of hotels, motels, homes, preschools, nurseries, day cares, nursing homes, hospitals, schools, institutional and storage buildings, dairies, milk storage rooms, egg processing plants, supermarkets, restaurants, bottling plants, canneries, flour and feed mills, bakeries, and hospitals. In hospitals, patients should be removed prior to treatment. Also for use in campers, mobile homes, boats, automobiles, trucks, and boxcars. Also for use in dog kennels and horse stables. In horse stables, not for application if horses will be used for food.

Do not apply when food, feed or water is present. Do not apply this pesticide when people, pets, and/or food are present. Do not use in food/feed areas of food/feed handling establishments, restaurants or other areas where food/feed is commercially prepared or processed. Do not use in serving areas while food/feed is exposed or facility is in operation. Serving areas are areas where prepared foods/food are served, such as dining rooms, but excluding areas where foods/feed may be prepared or held.

Do not apply this product in barns or stables where animals intended for slaughter or human consumption will be maintained. In the home, cover all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Expired food should be covered or removed. Not for use in federally inspected meat and poultry plants. Nonfood/feed areas are areas such as garbage rooms, lobbies, entries, vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, and storage (after canning or bottling). Food/feed areas of commercial food/feed handling establishments where the product cannot be used include areas for receiving, serving, storage (dry, cold, frozen, raw), packaging (canning, bottling, wrapping, boxing), preparing (cleaning, slicing, cooking, grinding), edible waste storage, enclosed processing systems (mills, dairies, edible oils, syrups).

Do not apply this product in hospital patient rooms while occupied or in any rooms while occupied by the elderly or infirm. Do not apply in classrooms when in use. Do not apply to institutions (including libraries, sports facilities, etc.) when occupants are not present. Do not apply to non-food areas indoors and outside premises of hotels, motels, homes, preschools, nurseries, day cares, nursing homes, hospitals, schools, institutional and storage buildings, dairies, milk storage rooms, egg processing plants, supermarkets, restaurants, bottling plants, canneries, flour and feed mills, bakeries, and hospitals. In hospitals, patients should be removed prior to treatment. Also for use in campers, mobile homes, boats, automobiles, trucks, and boxcars. Also for use in dog kennels and horse stables. In horse stables, not for application if horses will be used for food.

DO NOT USE THIS PRODUCT IN OR ON ELECTRICAL EQUIPMENT DUE TO THE POSSIBILITY OF SHOCK HAZARD.

For contact and residual sprays, mix with water in the following manner:

For residual and contact control of cockroaches (waterbugs), crickets, silverfish (firebrats), clover mites, millipedes, centipedes, earwigs, sowbugs (pillbugs), spiders, brown dog ticks, lone star ticks, ants, fire ants, fleas, boxelder bugs, scarabaeid beetles, bedbugs, grasshoppers, house flies, mosquitoes, gnats, fruit flies, cluster flies, flying moths. Spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards and storage areas, openings around pipes and sinks, under refrigerators, baseboards and storage.
For Bedbugs: Apply as a spot treatment to cracks and crevices, around baseboards, framing, window and door frames, eaves, patios, garages, and other vegetation, as listed on this label, and not over an impervious surface, drainage or other open water body, eating and cooking areas, or from areas where people are typically present. Apply to building foundations, up to a maximum height of 3 feet. Also, apply as a spot treatment to outside surfaces of buildings, including porches, screens, window frames, eaves, patios, garages, refuse dumps, and other areas where these pests congregate or have been seen.

Pests on Outside Surfaces of Buildings: Use this product to control ants, clover mites, crickets, earwigs, ledge bugs, and wasps. For outdoor use only, use as an aid in control. Apply to outside walls, or from areas where people are typically present. Do not use in milk rooms.

Pests on Farm Premises: Use this product to control ants, clover mites, crickets, earwigs, ledge bugs, and wasps. For outdoor use only, use as an aid in control. Apply to outside walls, or from areas where people are typically present. Do not use in milk rooms.

Pest Control Use: Use for control of pests in agricultural, residential, and commercial environments. Use to control ants, clover mites, crickets, earwigs, ledge bugs, and wasps. For outdoor use only, use as an aid in control. Apply to outside walls, or from areas where people are typically present. Do not use in milk rooms.

Pest Control Use: Use for control of pests in agricultural, residential, and commercial environments. Use to control ants, clover mites, crickets, earwigs, ledge bugs, and wasps. For outdoor use only, use as an aid in control. Apply to outside walls, or from areas where people are typically present. Do not use in milk rooms.

Pesticide Disposal: Store and transport in an upright position. Store in a cool dry area accessible to children or pets. Pesticide Disposal: If partly filled - Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain. Container Disposal: If empty - Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

STORAGE AND DISPOSAL

Storage: Store and transport in an upright position. Store in a cool dry area accessible to children or pets. Pesticide Disposal: If partly filled - Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain. Container Disposal: If empty - Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.
