

NATULAR® DT

Mosquito Larvicide / For Outdoor Use

- Kills mosquito larvae in standing water where adult mosquitoes breed.
- Controls larvae of mosquitoes which may transmit Dengue, Chikungunya, or Zika.
- For use in garden ponds, bird baths, fish ponds, water gardens, rain barrels, fountains, ornamental pools, roof gutters, and standing water.
- Can be applied to sites that contain Fish and Plants.
- Keeps working for 60 days.

Active Ingredient:

Spinosad (a mixture of Spinosyn A and Spinosyn D) 7.48%

Other Ingredients 92.52%

Total 100.00%

Contains 0.1 gram Spinosad per extended-release tablet. This product may absorb moisture; therefore, the weight of the tablet and percent by weight of active ingredient will vary with hydration.

U.S. Patent No. 5,362,634 and 5,496,931

Keep Out Of Reach Of Children

CAUTION

First Aid

- If in eyes:**
- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
 - Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-214-7753 for emergency medical treatment information.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

Caution. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear protective eyewear (such as safety glasses). Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

Environmental Hazards

This product is toxic to aquatic invertebrates. Non-target aquatic invertebrates may be killed in waters where this pesticide is used.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Read all Directions for Use carefully before applying.

Product Information

Through a single mosquito bite, adult mosquitoes can pose a serious threat to people and animals by transmitting West Nile virus and other viruses that can cause encephalitis.

Emptying or discarding small containers that are holding water will ensure the best results. In instances where small containers cannot be emptied or discarded and for other standing water around the home, using NATULAR® DT is a simple and effective way to kill developing mosquito larvae before they become breeding and biting adults.

NATULAR® DT is a uniquely engineered, patented bi-layer tablet for use in mosquito breeding sites. The top, white, effervescent layer quickly releases a dose of active ingredient that provides rapid control of existing mosquito larvae. The bottom, tan layer provides an extended, slow release of active ingredient that

continually controls mosquito larvae in the water for up to 60 days. NATULAR® DT's active ingredient, spinosad, is biologically derived from the fermentation of *Saccharopolyspora spinosa*, a naturally occurring soil organism.

Application Directions

NATULAR® DT can be used in artificial containers and natural standing-water sites around your home to control the mosquito larvae of breeding mosquitoes. NATULAR® DT can be applied as a preventative action (pre-flood treatment) before sites fill with water. NATULAR® DT may also be used in sites that intermittently fill with water; the NATULAR® DT's slow release layer will stop working when dry, and begin working again when re-wetted. NATULAR® DT will control mosquito larvae for up to 60 days when immersed in water. Reapply after as needed.

Restrictions

Do not apply to natural or artificial containers of water intended for consumption by people, animals, or livestock.

In New York State, this product is only for use in containerized sites with no outflow to the natural environment.

Application Sites

Bird Baths, Ornamental Fish Ponds, Garden Ponds, Water Gardens, Ornamental Fountains, Ornamental Pools or Ponds, Flower Pots or Planters, Rain Barrels, Urns, Tree Holes, Pool Covers, Unused or Abandoned Swimming Pools, Roof Gutters, Roof Top Catchments, Storage Tanks, Drums, Buckets, Wheelbarrows, Garbage Cans, Other Water-Holding Receptacles, Floor Drains, Old Tires, Rock Holes, Pot Holes, Tire Tracks, Other Natural and Man-Made Depressions.

Application Rates

For shallow standing water holding areas (less than 6 inches deep), 1 tablet treats up to 25 square feet of surface area. For containers or water holding receptacles holding more than 6 inches of water, apply 1 tablet to treat up to 50 gallons (192 liters) per container.

Storage and Disposal

Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage: Store in a cool dry place in original container only.

Pesticide Disposal: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

Container Handling: Nonrefillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Warranty: To the extent consistent with applicable law seller makes no warranty, express or implied, concerning the use of this product other than as indicated on the label. Buyer assumes all risk of use/handling of this material when use and/or handling is contrary to label instructions.
